

Soaking Tank™

The Soaking Tanks are focused on treatment of product with dissolution of additives. Depending on customer requirements, a soaking tanks solution can be defined with different types of loading or unloading systems. Using this kind of automatic solutions reduce the manpower.

Benefits:

- Batches processing.
- Different types of loading/unloading systems, depending on Customer requirements.
- Can used for cephalopods and shrimps (multiproduct).
- Robust and modular design.
- User friendly interface with recipes configurator for different kind of products included.
- Semi-Automatic Cleaning Process included.
- Capacity up to 1.000kg/tank.
- Alarms notification system by email included.
- OPC-UA connection included.
- Include: Traceability system reporting all the parameters during the process per each batch number and saved them in a database.
